

## All Postman data

## Postman creating a record by showing the post request

Postman edit a record by showing the put request

Postman delete a record by showing the delete request

The image shows the Postman interface for a DELETE request. The request is sent to `http://localhost:5000/api/v1/cities` with a status of 200 OK. The response body, shown in JSON format, lists four city records. A blue arrow points from a box labeled "Delete data" to the first record in the request body, and another blue arrow points from a box labeled "Deleted id 104 and record" to the first record in the response body.

**Request:**

```
1 {
2   "id": 104,
3   "fldheight": 55.55,
4   "fldweight": 123.45
}
```

**Response:**

```
482 {
483   "id": 98,
484   "fldheight": 63.43,
485   "fldweight": 123.10
486 },
487 {
488   "id": 99,
489   "fldheight": 66.77,
490   "fldweight": 128.14
491 },
492 {
493   "id": 100,
494   "fldheight": 68.89,
495   "fldweight": 115.48
496 },
497 {
498   "id": 102,
499   "fldheight": 22.22,
500   "fldweight": 333.33
501 }
502 }
```
